

Beef Clip

The Beef Clip provides combined sealing and rodding of the weasand during cattle processing.

Australian made from high-strength, food-grade plastic. It is easily applied by hand, forms a secure seal around the weasand, and it will not slip or pull off.

Features;

Fast and easy to apply

- The clip is easy to apply by hand, whether on the chain or on the floor. No tools required.

Proven to reduce contamination

- Positive two-stage latch and diaphragm sealing system ensures no leakage or slippage.
- Provides positive sealing of the weasand at the paunch having permanently cleared weasand of ingesta.

Accommodates varying weasand sizes

- A strong fracture-proof hinge and double latch accommodates varying weasand sizes.

Secure

- Will not pull off when the weasand is drawn through the diaphragm during viscera removal.
